

Dongguan Wellsource Water Treatment Co.Ltd

Firberglass Membrane Housing

Features:

1. Adopt original epoxy resin importation ,outstanding corrosion resistance and anti-aging property;
2. Adopt advanced processing to ensure good heat-insulating property and anti-oxidation property;
3. Adopt e- fiber glass and glass fiber roving to improve the stable performance.

No.	Product Name	Model	Work Pressure	Remark
1	Firberglass Membrane Housing	8040-1 element	300Psi	Side Port
2	Firberglass Membrane Housing	8040-2 elements		Side Port
3	Firberglass Membrane Housing	8040-3 elements		Side Port
4	Firberglass Membrane Housing	8040-4 elements		Side Port
5	Firberglass Membrane Housing	8040-5 elements		Side Port
6	Firberglass Membrane Housing	8040-6 elements		Side Port
7	Firberglass Membrane Housing	4040-1 elements		End Port
8	Firberglass Membrane Housing	4040-2 elements		End Port
9	Firberglass Membrane Housing	4040-3 elements		End Port

RO Membrane

No.	Product Name	Model	Water Yield GPD(m ³ /d)	Pressure (bar)	Average Desalination Rate (100%)
1	RO Membrane	PA2-4040	2400 (9.51)	8-10	99.4
2	RO Membrane	ESPA2-4040	1900 (7.2)		99.5
3	RO Membrane	ESPA2-8040	10500 (39.7)		99.5
4	RO Membrane	ESPA2-4021	850 (3.2)		99.4
5	RO Membrane	ESPA2-3020	400(1.5)		97

Stainless Steel Membrane Vessel

Features:

1. Vessel: 304 or 316L Stainless steel, polishing inner surface
2. Stopper: stainless steel
3. Maximum capacity: 6 units of membranes
4. Seamless stainless steel pipe
5. Feed mode: by ends or by sides
6. Vessel and stopper connection type: clamp or built-in
7. Structure: reliable, easy install, pressure tested
